## DEFINITIONS

**First Aid** means the treatment of minor injuries which do not need treatment by a medical practitioner or nurse as well as treatment of more serious injuries prior to assistance from a medical practitioner or nurse for the purpose of preserving life and minimising the consequences of injury or illness. For the avoidance of doubt, First Aid does not include giving any tablets or medicines.

**First Aiders** are members of staff who have completed a Health and Safety Executive (HSE) approved First Aid course and hold a valid certificate of competence in First Aid at Work or Emergency First Aid

**First Aid Guidance** is the *First Aid at work: Health and Safety (First Aid) Regulations 1981: approved code of practice and guidance* (Health and Safety Executive, 2nd edition, 2009).

## AIMS

To ensure that Bramfield House School has adequate, safe and effective First Aid provision in order for every student, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor.

To ensure that all staff and students are aware of the procedures in the event of any illness, accident or injury

**Nothing in this policy should affect the ability of any person to contact the emergency services in the event of a medical emergency. Staff should always dial(9) 999 for the emergency services in the event of a serious medical emergency before implementing the terms of this Policy and make clear arrangements for liaison with ambulance services on the School site.**

### **PURPOSE**

To preserve life

- To limit worsening of the condition
- To promote recovery
- To provide First Aid as necessary from trained members of staff
- To promote health and safety awareness in children and adults, in order to prevent First Aid being necessary
- To encourage every child/young person and adult to begin to take responsibility for their health needs

## FIRST AID PROVISION

The Head Teacher is responsible for ensuring that there is an adequate number of qualified First Aiders. There will be at least one First Aider on each school site when children are present.

First Aid kits are provided on all house units and relevant class rooms and areas.

First Aid kits are provided in transport for visits off site.

The Operational and Quality Manager for Care will ensure the maintenance of the contents of the First Aid boxes and other supplies. All staff are responsible for alerting the Operational and Quality Manager for Care when they have used and need to replace equipment used from the First Aid box

The Operational and Quality Manager for Care to ensure adequate First Aid stock and supplies are ordered.

All staff will be trained in any aspects of First Aid deemed necessary e.g. asthma, epilepsy.

All staff will ensure that they have read the school's First Aid Policy.

In the Middle School, at least one person who has a current First Aid certificate will be on the premises at all times when children are present.

On outings there will be at least one person who has a current First Aid certificate.

A list of First Aiders names is maintained centrally and is available in departmental areas.

The main duties of First Aiders are to give immediate First Aid to students, staff or visitors when needed and to ensure that an ambulance or other professional medical help is called when necessary. First Aiders are to ensure that their First Aid certificates are kept up to date through supervision and liaison with the Head Teacher/ Operational and Quality Manager for Care

The First Aiders will undergo update training at least every three years.

All staff should read and be aware of this Policy, know who to contact in the event of any illness, accident or injury and ensure this Policy is followed in relation to the administration of First Aid. All staff will use their best endeavors, at all times, to secure the welfare of the students.

Anyone on the School premises is expected to take reasonable care for their own and others safety.

### **FIRST AID BOXES/KITS**

First Aid Boxes are located in:

- Medical Room – large white trolley
- Sick Bay – large white trolley
- Kitchen
- Ibstock House Office
- All School Transport
- DT room
- Food Technology room
- Science room
- Maintenance
- Plant Room
- Horticulture
- Middle School
- Fire Marshal bags
- Lower School
- Farm

- Motor Mechanics

No medicine/tablets are to be kept in the First Aid Boxes/kits. See **appendix 2** for contents of First Aid Box/Kit.

Signs will be displayed around the school indicating where First Aid kits can be found. The First Aid kits will be located as near to hand washing facilities as is practicable.

The First Aid boxes/kits should only be used by a qualified First Aider and can be used in the time it takes for the Lead First Aider to arrive. They can be used also for very minor injuries such as small cuts.

## **FIRST AID MATERIALS, EQUIPMENT AND FACILITIES**

The Head Teacher must ensure that the appropriate numbers of first-aid containers, according to the risk assessment of the site, are available. See HSE guidelines on recommended and mandatory contents.

- a) All first-aid containers must be marked with a white cross on a green background
- b) Each vehicle must carry a first-aid kit

First Aid containers should be kept near to hand washing facilities as is practicable.

Spare stock should be kept in the medical room/sick bay. The Operational and Quality Manager for Care orders adequate stock and supplies.

If First Aid boxes/kits are used, they should be re-stocked by the Pastoral Development Leader. Staff using the First Aid boxes/kits are responsible for making sure they request stock is replaced if used.

The First Aid boxes/kits should be checked once a term and a record kept both in the box/kit and centrally in the Medical Room/sick bay. These checks can be done by the Operational and Quality Manager for Care or a designated staff member.

## **ACCOMODATION**

The Head Teacher must provide a suitable room for medical treatment and care of children during school hours. This need not be a dedicated area but should be close to a lavatory and contain a washbasin. Living Areas can be used for treatment or illness for boarding pupils.

A bed can be used by day pupils if they become ill whilst at school; this is a fold up bed that can be put into the Sick Bay.

## **PROCEDURE IN THE EVENT OF AN ACCIDENT OR INJURY**

If an accident occurs, then either the member of staff supervising the class or a lead first aider should be informed. That person will assess the situation and decide on the next course of action, which may involve calling immediately for an ambulance. If necessary a Lead First Aider should be called for as soon as is possible. A First Aider can also be called for if necessary and should be called if a lead first aider is not available immediately.

In the event of an injury or medical emergency, staff should notify a member of the Senior Leadership Team. After 10pm, staff should also call a member of the Senior Leadership Team. In the event that the First Aider does not consider that they can adequately deal with the presenting condition by the administration of First Aid, then they should arrange for the injured person to access appropriate medical treatment without delay.

A list of First Aiders names and locations are maintained centrally and is available in departmental areas.

Davina Bell to be contacted and informed of any pupil complaining of illness or who has been injured. If too unwell to attend class, constant supervision will be provided by the Pastoral Team/Care Team or youth coaches in their bedroom/sick bay. Parents/carers will be contacted.

Parents/carers are contacted if there are any doubts over the health or welfare of a pupil.

The school recommends that, unless it cannot possibly be avoided, no member of staff should administer First Aid without a witness (preferably another member of staff).

No member of staff or volunteer helper should administer First Aid unless he or she has received proper training, except in the case of minor cuts and grazes.

For their own protection and the protection of the patient, staff who administer First Aid should take the following precautions:

Exposed cuts and abrasions should be cleaned under running water and patted dry with a sterile dressing.

Hands should be washed before and after administering First Aid. Disposable gloves should be worn and apron if necessary

If an injury has been sustained, the pupil should not be moved and a lead first asked for support.

In the event of a head injury, the pupil or staff should be seen by a lead first aider who should assess the injury and observe for signs of concussion. Head injuries should always be treated with extra caution and further medical attention is required if there is any doubt, this may be to call 111, go to minor injuries or to hospital. All cases should be monitored for 24 hours regardless.

## **PROCEDURE FOR STUDENTS WITH MEDICAL CONDITIONS (SUCH AS ASTHMA, HAEMOPHILIA, EPILEPSY, DIABETES ETC.)**

All staff undergoes emergency First Aid training on a rolling programme. Staff will also undergo training for Asthma or other specific medical conditions on a rolling programme where necessary.

A list of all of the students with a medical condition or allergy is maintained. It states whether they need to have access to asthma inhalers, Haemophilia medication, Epipens, injections or similar. It also identifies medications that are prohibited due to their condition. This information is circulated to teachers, care, domestic and all First Aiders.

A copy of individuals Asthma Plans are circulated to teachers and First Aiders along with a digital copy which is stored in section 7 of their pupil working file and within the 'Asthma Plans' file in the Medication Folder on the staff drive.

There is an Emergency Salbutamol (blue) Inhaler located in the downstairs Medical Room (kept on top of the medical cabinet). This is to be used in an emergency in the event that a pupil does not have access to their own Salbutamol inhaler for whatever reason.

It may be necessary for students to have an Individual Medical Risk Assessment for specific conditions, these will be kept in section 7 of the pupil working file along with being circulated to relevant staff via email.

There will be information on the individuals Essential Information sheet with details of specific conditions including hypoglycaemic episodes or anaphylactic shock. This information will be viewed regularly on a termly basis or sooner if necessary.

## **PROCEDURE IN THE EVENT OF ILLNESS**

If a student is unwell during lessons then he should consult the member of staff in charge who will assess the situation and decide on the next course of action. The student will be accompanied to the Medical Room/sick bay if appropriate. Students who have been injured and who are in obvious pain or distress should never be directed to make their own way to the Medical Room/sick bay and should be accompanied by an adult at all times.

The member of staff in charge will contact the Medical Room/sick bay to indicate that the student should be expected. A Lead First Aider will decide on the next course of action and provide the First Aid as required.

## EMERGENCY SITUATIONS

**IF THE SITUATION IS LIFE THREATENING THEN AN AMBULANCE SHOULD BE CALLED AT THE EARLIEST OPPORTUNITY WITHOUT WAITING FOR THE APPOINTED PERSON TO ARRIVE ON THE SCENE. HERE, THE SCHOOL'S (9)999 POLICY SHOULD BE ADOPTED.**

Senior Person on Call to be informed.

All serious accidents should be reported to Senior Person on Call, who should call an ambulance and the child's parents ASAP

In the event of a serious incident an ambulance is called and a member of staff will accompany the pupil to hospital. It may be appropriate to transport a pupil to hospital. This will be by school transport with a school insured driver.

### **Ambulances:**

Staff should always call an ambulance in the following circumstances:

- A significant head injury
- Fitting, unconsciousness, or concussion
- Difficulty in breathing and / or chest pains
- A severe allergic reaction
- A severe loss of blood
- Severe burns or scalds
- The possibility of a serious fracture
- In the event that the First Aider does not consider that they can adequately deal with the presenting condition by the administration of First Aid or if they are unsure of the correct treatment

If an ambulance is called, the Lead First Aider or First Aider in charge should make arrangements for the ambulance to have access to the accident site including providing GPS coordinates where appropriate

Arrangements should be made to ensure that any student is accompanied in the ambulance, or followed to hospital, by a member of staff if it is not possible to contact the parents in time.

To use a mobile hand set to dial for an ambulance as this can be taken to the casualty so that advice can be followed, whilst attending the casualty.

The pupils Essential Information sheet should be printed off and taken to the hospital.

## **OUT OF SCHOOL**

- Always take a MOBILE PHONE on trips out of school.
- Teachers/key staff to check that pupils have medication e.g. inhaler and emergency medication for seizures.
- First Aid kits are provided within all school transport.
- A Risk Assessment will need to be carried out as part of an educational trip/evening activity.

**School minibuses:** The School's minibuses all have an allocated bag which contains an emergency First Aid Kit. The First Aid kit is stocked in accordance with part 2 of schedule 7 of the Road Vehicles (Construction and Use) Regulations 1986 (SI 1986/1078) which is set out in Appendix 1.

## **INFORMATION ON STUDENTS**

Parents are requested to provide written consent for the administration of First Aid and medical treatment before students are admitted to the School. Parents/carers are also requested to provide the school with details of any medical conditions and medications as part of the admission process.

The Operational and Quality Manager for Care will be responsible for reviewing student confidential medical records and providing essential medical information to the SLT, Heads of Departments, Pupil Support Team members, class teachers/TA's and First Aiders on a need-to-know basis. This can be regarding allergies, recent accidents or illnesses, or other medical conditions which may affect a student's functioning at the School. This information should be kept confidential but may be disclosed to the relevant professionals if it is necessary to safeguard or promote the welfare of a student or other members of the School community.

This information can be found the individual young person's placement and health plan

## **INCIDENT REPORTING**

All incidents, injuries, head injuries, ailments and treatment are reported. Accident books can be located in the following areas:

Safeguarding office  
Medical Room/Sick Bay (upstairs)  
Ibstock House

All accidents that occur during the school day should be recorded in the accident book held in the Safeguarding office. Staff will liaise with Jack Gardener (Welfare Management) to determine whether it is necessary to complete the form.

The Care Team are responsible for recording all accidents that occur during the evenings, these should be recorded in the books held at Ibstock House and the upstairs Medical Room.

If treatment has been administered this is to be recorded on the accident form and on the individual young person's minor injuries form, which is found in the relevant class group folder in the electronic pupil working file.

Jack Gardener (Welfare Management) or a member of the admin team is responsible for recording the incident and treatment on SHE. The designated staff member is responsible for recording on the pupil's individual continuation and treatment sheet.

**Reporting to HSE:** The School is legally required under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (SI 1995/3163) (**RIDDOR**) to report the certain injuries, diseases and dangerous occurrences to the HSE.

Senior/Deputy Team Leaders/Class Teacher/Pastoral Development Leader, Youth Coaches to contact parents by phone regarding injury, LEA and Social Services informed if applicable.

### **ACCIDENTS INVOLVING STAFF**

Staff can seek medical attention or advice with regards to a First Aid situation from one of the Lead First Aiders.

An injured member of staff or other supervising adult should not continue to work if there is any possibility that further medical treatment is needed.

The member of staff or other supervising adult concerned should seek medical advice without delay.

### **MONITORING**

The Health and Safety Group will organise a monthly review of the Accident book in order to take note of trends and areas requiring improvement. This will form part of the annual First Aid risk assessment. The information may help identify training or other needs and be useful for investigative or insurance purposes. In addition, the Head Teacher will arrange for a review of all procedures following any major incident to check whether the procedures were sufficiently robust to deal with the major occurrence or whether improvements should be made.

## **PROCEDURE IN THE EVENT OF CONTACT WITH BLOOD OR OTHER BODILY FLUIDS**

No person must treat a casualty who is bleeding, without protective gloves.

Cover any cuts and grazes on their own skin

Use devices such as face shields, where appropriate, when giving mouth to mouth resuscitation

Protective gloves are stored in the Medical Room/Sick Bay and with all First Aid Kits.

Sponges and water buckets must never be used for clearing up bodily fluids, to avoid the Risk of HIV contamination; therefore specific Absorbing Granules are provided and stored in the First Aid Trolley in the Medical Room/Sick Bay, and in yellow bio-hazard kits found in the medical room/sick bay/ laundry room.

All body fluid spillage's (Vomit, diarrhea and Blood) must be cleaned immediately. This is vital if spread of infections is to be reduced. Gloves and aprons should be worn when in contact with blood or body fluid is likely. They must be kept for this purpose only. Following use, gloves and aprons must be disposed of.

Once spillages have been covered in the granules they are then cleaned up and put in a double plastic bag and disposed of correctly. The floor area then needs to be cleaned using appropriate designated cleaning equipment. Hands must be washed and dried after removal of protective gloves.

Wash hands after every procedure

## **QUALIFICATIONS AND TRAINING**

- First Aiders will hold a valid certificate of competence, issued by an organization approved by the HSE.
- Appointed persons will undertake one-day emergency first-aid training.
- Appointed persons will undertake 4 day First Aid course, First Aid at Work, valid for three years (advanced First Aid training).

## **REVISION**

This document will be revised on a regular basis to confirm that the arrangements are still appropriate.

A review will also take place if there are any significant changes in the arrangements and also after any serious incident to ensure that this policy was sound in its content.

## **APPENDIX 1**

### **Part 2 of schedule 7 of the Road Vehicles (Construction and Use) Regulations 1986 (SI 1986/1078)**

First Aid equipment:

- Ten antiseptic wipes, foil packed
- One conforming disposable bandage (not less than 7.5 cm wide)
- Two triangular bandages
- One packet of 24 assorted adhesive dressings
- Three large sterile un-medicated ambulance dressings (not less than 15.0 cm × 20.0 cm)
- Two sterile eye pads, with attachments
- Twelve assorted safety pins
- One pair of rust less blunt-ended scissors.

## **APPENDIX 2**

**Contents of First Aid Kit/boxes:**

- Plasters,
- 2 pairs gloves,
- Eye wash pods,
- medium dressing,
- hand gel,
- cleaning wipes,
- triangular bandage,
- wound dressings,
- eye dressings

## **APPENDIX 3**

**Consent letters:-**

- Emergency Treatment
- Open Water Swimming Activities
- Photograph Permission
- Sex Education
- Non-prescribed Medication
- Responsible Internet Issue
- Head Lice treatment

These consent letters can be obtained from the Main School Office.
